

Version 1.0

This License Agreement (the “Agreement”) is a legal contract entered into between an individual or legal entity (the “User”) and a-parser.com regarding the A-Parser software (the “Program”), which may include software components and accompanying documentation in printed and electronic form. By installing, copying, or otherwise using the Program, the User thereby accepts and confirms agreement to comply with these terms of this Agreement. If you do not accept the terms of this Agreement, do not install or use this Program. The Program is protected by copyright laws and international copyright treaties.

Grant of License

The End User is granted a non-exclusive, non-transferable license to use the Program subject to the conditions set out below.

After purchasing a license for the Program, a-parser.com grants the User the right to install and use the Program. The license is granted exclusively for personal use.

One license permits installation of the Program on one computer or server and use only on one computer/server at a time. To run A-Parser simultaneously on two or more computers/servers, additional licenses must be purchased for each additional computer/server. The User has the right to install an unlimited number of copies on one computer/server. The User may also transfer the Program to another computer/server without limitation.

There are three license types: Lite, Pro, Enterprise. The Program provided differs functionally depending on the license type. The User has the right to purchase a license type upgrade. License downgrading is not possible.

Depending on the license type, the User is entitled to free updates for a specified period (currently: Lite - 3 months, Pro and Enterprise - 6 months). The period of the free update subscription starts from the moment of purchase. A license upgrade, as well as any other purchases, does not grant entitlement to free updates.

After the update subscription expires (free or paid), the User is entitled to use the Program without any time limitation, in the version and with the features that were available at the time the last subscription expired. To update to the latest current version, the User must pay for a new subscription. The period during which there was no update subscription does not need to be paid for.

To verify license authenticity, the IP address of the computer on which the Program is installed is checked. Use of the Program means the User agrees to the transmission of certain information about the computer during activation and license verification. The activation procedure links use of the Program to a specific computer. During activation, information about the software and computer is transmitted to a-parser.com. This information may also include information obtained from the computer's hardware configuration. No personal data, such as passwords, accounts, etc., is transmitted. Circumventing the activation or verification procedure in any way is prohibited.

Other Rights and Restrictions

Use of the Program for activities that violate the laws of the User's country is prohibited.

Removing or altering any copyright notices on all copies of the Program and in accompanying materials is prohibited.

The Program is not sold but licensed for use. This Agreement grants the User only certain rights to use the functions available in the version of the Program that the User received upon purchasing either the license itself or an update subscription.

The User must comply with all technical limitations in the Program that allow it to be used only in certain ways. The User may not:

- resell, rent out, publish on the Internet, or by any other means provide access to the Program, giving third parties the ability to copy or use it;
- attempt to circumvent technical limitations in the software;
- decompile or disassemble the Program.

In case of violation of these provisions, a-parser.com reserves the right to block or fully revoke the license without refund.

To use the current version of the Program and receive updates in a timely manner, the User must have an active update subscription. After updating, it is not possible to obtain a previous software version, except where the User has a backup copy.

The license holder is identified by the registered account on the website <https://a-parser.com>

Disclaimer of Warranties and Liability

a-parser.com expressly disclaims any warranties with respect to the Program. The Program and all related documentation are provided “as is,” without any warranty, express or implied, including, without limitation, all implied warranties of merchantability or fitness for a particular purpose. The User assumes all risks associated with use of the Program or the quality of its performance.

a-parser.com is not liable for any damages (including, without limitation, loss of profit, lost benefits, business interruption, loss of business information, or any other losses) related to the use of or inability to use the Program, as well as the provision of or inability to provide technical support services, even if a representative of a-parser.com was notified or knew or should have known of the possibility of such losses and damages.

The User may not recover any damages, including indirect, special, consequential, or incidental damages.

Termination of the Agreement

Without prejudice to anyone’s rights, a-parser.com may terminate this Agreement upon non-compliance with its terms and restrictions. Upon termination of the Agreement, the User must destroy all copies of the Program in their possession.

Copyright

All exclusive rights, including copyrights in the Program, belong to a-parser.com and to the developers personally, and are protected by copyright laws and international copyright treaties.

Supplement

This Agreement applies together with the Licensing Terms described here:
